Dear Dentist:

This is concerning our patient _____ who is currently pregnant and may also need dental work. Most dental procedures and treatments are safe for both the mother and her pregnancy.

Safe procedures include but are not limited to:

- Teeth Cleaning
- Root Canal
- Cavity filling
- Local anesthesia without epinephrine preferred
- X-Ray with abdominal shielding
- Antibiotic therapy
 - » Penicillins
 - » Cephalosporins
 - » E-mycins
- Narcotic analgesic
 - » Oxycodone
 - » Hydrocodone

These are treatments that are contraindicated during pregnancy. Please avoid:

- Tetracycline
- Sulfa products
- Fluoroquinolone classes of antibiotics
- Avoid NSAID analgesia in pregnancy

Allergies to any medications should be established prior to prescribing or giving any medications.

Thank You!
